Lake Travis Special Services

Families, you are present in your child's life before, during, and after public schooling, whereas your child's teachers are only involved for a short time. Because of this, you have a very important role during your child's transition process.

When you have a good understanding of transition, you are better able to support your child in developing and implementing a plan to achieve their goals after high school.

Although the transition period is an exciting time in your child's life, it is also a time when you may have many questions and concerns about your child's future. The good news is there are people and organizations to help you and your child with the transition to adult life.

adapted from Texas Transition website, January 2023

<https://spedsupport.tea.texas.gov/>

---

We hope you are able to connect with some of these amazing people and organizations tonight by visiting their informational tables and attending their presentations!
