**TGA Premier Youth Tennis  (Grades K-5)**

Come serve it up with TGA Premier Youth Tennis at your school! TGA has partnered with the United States Tennis Association to create a fun and innovative tennis program for your child that takes place after school on campus. TGA’s 5 level elementary school curriculum includes games, drills and physical fitness activities that improve motor skills, agility and hand-eye coordination. Every TGA class focuses on academic concepts developed by educational experts, the rules and etiquette of tennis and skill development. TGA brings all of the equipment, training materials and a 10:1 student to instructor ratio to allow for plenty of individual attention. Our goal is to not only develop our student’s tennis skills, but to give children the building blocks for future achievement on the tennis court and in life.
