Dear Parents,

Our company, Secured Mobility LLC, has developed SMART tag, a system that helps increase safety and security for students riding on a school bus. SMART tag brings the convenience and accuracy of technology into the school bus.

SMART tag monitors student loading and unloading, providing real-time information to the Transportation Department, and you, the parent.

SMART tag will help...
• increase driver, school, and parent awareness
• ensure riders will load on the right bus and unload at the right stop
• maximize rider safety and security
• enable drivers to efficiently and effectively carry out their duties

SMART tag Parent Portal
• SMART Alerts – sign up for SMART Alerts and receive emails or text messages when your child is approximately 10-15 minutes from their stop.
• SMART Locate – allows parents to view a map that shows where their child is while on a bus.
• Authorized guardian release feature. This tool allows parents to update authorized guardians through the Parent Portal.

Make sure to register!
Go to parent.smart-tag.net and register to take advantage of the SMART tag Parent Features.
